

## A Call to Support Memhir Mulu Hailesilasie (The Host of [Wushatena Media](#) in Tigray)

### [GoFundMe Account Website](#)

A fundraising team in North America is so pleased to announce the official start of GoFundMe account to financially support Memhir Mulu Hailesilasie, the host of Wushatena Media (ወሻጠና ሚዲያ). This media has become the most powerful tool for the invisible and voiceless people in Tigray for better economic opportunities and social services at the local level. It fills the gap between those who have access to media and those who do not. So far, in collaboration with Tigray TV, more than 150 individuals with “special needs” (ፍሉይ ድሌት) have received financial and material support from donors like you. Of those 150 beneficiaries, 60 individuals were presented by Tigray TV and the remaining 90 beneficiaries by Wushatena Media.

The need and number of beneficiaries are increasing significantly. However, Wushatena Media faces financial, material, and transport shortfall to run its community services and reach out to those who need community support. Now, Wushatena Media is in a cross road due to financial shortages. Lack of transportation and video camera become bottle neck to Wushatena Media to run its program regularly. Without your financial support, Wushatena Media will face program interruption. We know that many of you are looking for a way to help Memhir Mulu Hailesilasie ( “the messenger” for the poor and disabled people in Tigray). So, let’s join together and show him the support he needed to run Wushatena Media in a more sustainable and coordinated way! Your donation will help Wushatena Media continue to deliver its program (መደብ ፍሉይ ድሌት) and helping to connect people challenged by social, economic, emotional, and behavioral issues while breaking down the cycle or stigma toward people with mental and physical health problems in Tigray.

We are accepting donations via:
